**Subject:** RE: Peer Review

Thank you Ramzi, looking forward to working with the IAEA on this peer review.

Dear [REDACTED] – it may be best for us to have an initial discussion by phone so as to better introduce ourselves and get the process started.  
I can be reached every day at 1-613-943-8948, starting at 2:00 pm Vienna time.

*Haidy*

**Subject:** RE: Peer Review

Dear [REDACTED],

[REDACTED] I wish to inform you that the CNSC/Canada is interested in having a peer review service focusing on safety and/or technical issues regarding safety case for NSDF and entombment to include the regulatory framework in support of CNSC regulatory decision making.

The IAEA and the CNSC will establish the TOR, as we discussed in Vienna, many of the governmental and regulatory structure (IAEA modules) need not to be reviewed as it was addressed in IRRS mission of 2009, follow up mission 2011 and the latest IPPAS.

We would like to have this review done prior to the calendar year.

Haidy will be the point of contact from the CNSC as the lead with the IAEA.

Best regards,  
Ramzi

**Subject:** Re: ARTEMIS review

Hi Jim

The CNSC has not requested an ARTEMIS mission. At one point back early 2018 we were contemplating it, but did not make any formal requests to the IAEA on the matter.

We (Canada) have formally requested an IRRS mission from the IAEA, which is scheduled for the first two weeks of September 2019. The IRRS mission is a full scope mission and will cover all nuclear facilities in Canada.

Should you need further information on the IRRS mission, I believe we have some information on our website and my colleague Hugh Robertson can provide further information. I have copied Hugh on this email to bring him in the discussion.

Merci

Haidy

Subject: ARTEMIS review

Hi Haidy,

Our DM office sent an urgent request to know whether CNSC may have requested the IAEA to conduct an ARTEMIS review of Canadian Nuclear Laboratories' three nuclear waste disposal projects (in-situ decommissioning of the WR-1 and NPD reactors, and the NSDF 'containment mound') at Chalk River?

I'm not sure if you are the right point of contact on this. If not, would you be able to point me to someone that would be able to confirm if an ARTEMIS review was requested, and any specifics around timing and rationale? They are seeking a response/confirmation this morning.

Thanks,  
Jim
